Evidence-Based Medicine systematically searches a wide range of international medical journals applying strict criteria for the validity of research. Experts critically appraise the validity of the most clinically relevant articles and summarize them including commentary on their clinical applicability. EBM also publishes articles relevant to the study and practice of evidence-based medicine.

Subscription Information
Would you rather read 20,000 articles or 150?
An enormous amount of work goes on behind the scenes to make sure that Evidence-Based Medicine provides you with all the information you need. We scan 100 journals and over 20,000 articles each year so that we can identify the most important and valid 150 research articles. This means you’ll get all the important research material you need in just 6 issues, saving you time to concentrate on other things. So for time-saving, distilled research information, make sure you subscribe to Evidence-Based Medicine.

Evidence-Based Medicine is intended for healthcare professionals and is provided without warranty, express or implied.
