The following articles are abstracted in the November/December 1996 issue of *ACP Journal Club*. The delarative title of each abstract as published in *ACP Journal Club* precedes the article citation.

**Therapeutics**

Meta-analysis: Blood pressure lowering reduces left ventricular mass index in essential hypertension

Low-osmolar ionic contrast media was better than nonionic media for ischemic complications of angioplasty

Low-dose heparin did not reduce fatal pulmonary embolism in patients hospitalized with infectious diseases

Nadolol plus isosorbide was better than sclerotherapy for preventing variceal rebleeding

Trimethoprim–sulfamethoxazole reduced relapses in Wegener granulomatosis

Riluzole increased tracheostomy-free survival and was well tolerated in ALS

Meta-analysis: Nicotine replacement therapy is effective for reducing smoking

Acamprosate helped to increase abstinence in alcohol dependence

Meta-analysis: Reduced dietary sodium decreases only systolic blood pressure in persons who are hypertensive or normotensive

**Prognosis**

Patients' perceptions of their MI predicted return to work and functioning

**Etiology**

Meta-analysis: Low-dose ibuprofen has the lowest gastrointestinal risk of any NSAID

High-dose famotidine prevented NSAID-induced ulcers in arthritis
