

Evidence-Based Medicine

Contents

June 2018 Volume 23 Issue 3

EBM opinion and debate

- 81** Learning framework for implementing best evidence

OPEN ACCESS

Research methods and reporting

- 84** The effect of publication bias magnitude and direction on the certainty in evidence

OPEN ACCESS

EBM analysis

- 87** Different knowledge, different styles of reasoning: a challenge for guideline development

OPEN ACCESS

- 92** When authors lie, readers cry and editors sigh

Evidence synthesis

General medicine

- 96** Prevention of exacerbations in patients with stable non-cystic fibrosis bronchiectasis: a systematic review and meta-analysis of pharmacological and non-pharmacological therapies

Original EBM research

- 104** Adherence to reporting guidelines and clinical trial registration policies in oncology journals: a cross-sectional review

Commentaries

General medicine

- 111** Proton pump inhibitor therapy after *Helicobacter pylori* eradication may increase the risk of gastric cancer

Primary care

- 113** Faecal immunochemical tests have the potential for correctly ruling out colorectal cancer in symptomatic patients

- 114** Intensive versus standard blood pressure treatment improves cardiovascular outcomes without any difference in patient-reported outcomes

- 115** Short-term cancer risks associated with oral contraceptives are balanced by longer term benefits

Letters

- 117** Expanding epidemiology and biostatistics curricula in undergraduate medical education to promote evidence-based practice

- 118** Scientific index: a complementary scale for the h-index

- 119** Response to Brodersen *et al*'s 'Overdiagnosis: what it is and what it isn't'

- 120** Introducing the informed health choices project to Ireland
