

Evidence-Based Medicine

Contents

Editorial

- 141** How to humanise the COVID-19 intensive care units

EBM opinion and debate

- 143** Information and rational decision-making: explanations to patients and citizens about personal risk of COVID-19

- 147** COVID-19 clinical trials: see it big and keep it simple

General medicine

- 149** Upholding trust in therapeutic trials and evidence-based medicine: need for full disclosure of data, crowdsourcing data analysis and independent review?

Maternal and child health

- 153** Best timing of tranexamic acid administration for bleeding after trauma or childbirth remains to be established

OPEN ACCESS

EBM learning

- 155** How to create PICO questions about diagnostic tests

OPEN ACCESS

- 158** Does my patient have SARS-CoV-2 infection? A reminder of clinical probability formulas

EBM analysis

Primary care

- 162** Statins for primary prevention: what is the regulator's role?

General medicine

- 167** Evaluating the quality of systematic reviews and meta-analyses published on direct oral anticoagulants in the past 5 years

Mental health

- 172** Methylphenidate for ADHD rejected from the WHO Essential Medicines List due to uncertainties in benefit-harm profile

- 176** COVID-19 and the US response: accelerating health inequities

OPEN ACCESS

General medicine

- 180** Problem with patient decision aids

Original research

- 184** Effect size reporting among prominent health journals: a case study of odds ratios

OPEN ACCESS

August 2021 Volume 26 Issue 4

- 185** Completeness of reporting for systematic reviews of point-of-care ultrasound: a meta-research study

Emergency care

- 188** Barriers to reporting guideline adherence in point-of-care ultrasound research: a cross-sectional survey of authors and journal editors

- 191** Public awareness of the National Suicide Prevention Lifeline following the release of a hip-hop song

Primary care

- 192** Inactivated trivalent influenza vaccination is associated with lower mortality among patients with COVID-19 in Brazil

Evidence synthesis

- 194** An evidence map of randomised controlled trials evaluating genetic therapies

- 195** Asthma and COVID-19: review of evidence on risks and management considerations

Coroners' concerns to prevent harms

- 196** Diclofenac in adolescents: diagnosing and treating gastrointestinal adverse drug reactions can prevent future deaths

EBM verdict

Emergency care

- 200** Ibuprofen for acute pain relief in the emergency department

Primary care

- 202** Multidisciplinary teams effect on major amputations in patients with diabetes

- 204** Does taking omega-3 supplements reduce the risk of having depression or anxiety? Probably not

Letters

- 205** Sacubitril, valsartan and SARS-CoV-2

- 206** EBM in Brazil and the creation of the Oxford-Brazil EBM Alliance
