<b>Purpose and procedure</b>	<b>1</b>
<b>EBM notebook</b>	
Jottings . . .	2
An emerging consensus on grading recommendations?	2
Teaching tip: the invisible hand of randomisation	5
Evidently . . .	6
3 <sup>rd</sup> International Conference of Evidence-Based Health Care Teachers & Developers	7
<b>Therapeutics</b>	
Review: some evidence shows that self help books based on cognitive behaviour therapy can relieve depression in some patients	8
Review: limited evidence from 2 randomised controlled trials suggests that oral and intramuscular vitamin B <sub>12</sub> have similar effectiveness for vitamin B <sub>12</sub> deficiency	9
Low dose aspirin did not prevent cancer in healthy women	10
Vitamin E did not prevent cardiovascular disease and cancer in healthy women	11
Review: viscosupplementation for knee osteoarthritis reduces pain and improves function	12
Review: vitamin D plus calcium, but not vitamin D alone, prevents osteoporotic fractures in older people	13
Adjunctive treatment with eplerenone reduced 30 day all cause mortality in acute myocardial infarction	14
Review: angiotensin converting enzyme inhibitors and angiotensin receptor blockers prevent atrial fibrillation	15
Pulmonary vein isolation was better than antiarrhythmic drugs for symptomatic atrial fibrillation	16
The Bug Buster kit was better than single dose pediculicides for head lice	17
Topical chloramphenicol was not effective in children with acute infective conjunctivitis	18
