Purpose and procedure	1	Nurse-led cognitive behaviour therapy improved insight and reduced negative symptoms and readmissions in schizophrenia	21
EBM notebook		Periodic telephone counselling for polypharmacy improved compliance and reduced mortality	22
Jottings...	2	Review: opiate administration may alter physical examination findings but does not increase management errors in acute abdominal pain	23
Misunderstandings, misperceptions, and mistakes	2		
The evolving science of translating research evidence into clinical practice	4		
Evidently...	8		
Therapeutics		Diagnosis	
Budesonide-formoterol for maintenance and as needed reliever treatment reduced asthma exacerbations	9	Review: tissue transglutaminase test is almost as accurate as endomysial antibody test for diagnosis of coeliac disease	24
Review: long acting β agonists increase severe asthma exacerbations and asthma related deaths in children and adults	10	Review: history and physical examination can accurately identify migraine and the need for neuroimaging in patients with headache	25
Review: omalizumab reduces exacerbation and steroid use in chronic asthma	11	Aetiology	
Review: long acting β_2 adrenoceptor agonists are effective in poorly reversible chronic obstructive pulmonary disease	12	Fetal exposure to ACE inhibitors increased risk of major congenital malformations	26
Review: anticholinergics but not β_2 agonists reduce exacerbations requiring hospital admission and respiratory deaths in COPD	13	Quality improvement	
Physiotherapy plus a craniocervical training programme was better than physiotherapy alone in tension type headache	14	Review: 3 of 4 RCTs on the treatment of adolescent depression in primary care have positive results	27
Review: medical therapy with calcium channel blockers or α blockers helps patients to pass urinary stones	15	Economics	
Review: planned early birth after prelabour rupture of membranes at term has benefits for mother and infant	16	B type natriuretic peptide testing was more cost effective than conventional diagnosis in patients with acute dyspnoea	28
Diuretics were superior to calcium channel blockers and short term ACE inhibitors for reducing heart failure in hypertension	17	Resource review	29
Daily oral vitamin B-12 with or without folic acid for 24 weeks did not improve cognitive function in elderly people	18	Additional articles abstracted in ACP Journal Club	30
Environmental and dietary interventions in the first 5 years of life did not reduce risk of asthma and allergic disease	19	Other articles noted	31
Naltrexone increased abstinence and reduced heavy drinking during treatment	20	Glossary	Inside back cover
