

# Evidence-Based Medicine

## Contents

### Editorial

- 1 Overdiagnosis: what it is and what it isn't

### EBM opinion and debate

- 4 Beliefs, critical thinking and evidencebased medicine
- 6 Rare adverse events in clinical trials: understanding the rule of three

### Research methods and reporting

- 7 Analysis of conference abstract-to-publication rate in UK orthopaedic research

### EBM Learning

- 13 Interactive visualisation for interpreting diagnostic test accuracy study results

- 17 External validity, generalisability, applicability and directness: a brief primer

- 20 Catalogue of bias: allocation bias

- 21 Catalogue of bias: attrition bias

- 23 Catalogue of bias: observer bias

### EBM analysis

- 29 Key Concepts for Informed Health Choices: a framework for helping people learn how to assess treatment claims and make informed choices

## February 2018 Volume 23 Issue 1

- 33 When is a guideline not a guideline? The devil is in the details

### Commentaries

#### General medicine

- 37 High incidence of cervical cancer in women over 60 is likely due to less intensive cervical screening in this generation of women

- 38 Trial supports targeted radiotherapy for early breast cancer but protocol still requires 3 weeks of daily therapy

- 39 Low-dose levothyroxine did not improve symptoms in asymptomatic older people with subclinical hypothyroidism

- 40 NSAIDs are superior to paracetamol for osteoarthritic pain and function in a network meta-analysis

#### Emergency care

- 42 Angiotensin II increases blood pressure in patients with refractory vasodilatory shock

### Letter

- 44 Effect size in CANTOS trial

### Miscellaneous

- 25 Correction: *Ten essential papers for the practice of evidence-based medicine*
