

Evidence-Based Medicine

Contents

Editorials

- 121** Reflections on the history of systematic reviews

- 123** Essential medicines and the challenges in the Evidence-Based Manifesto

EBM opinion and debate

- 125** Challenge of communicating uncertainty in systematic reviews when applying GRADE ratings

- 127** What is a 'complex systematic review'? Criteria, definition, and examples

Original EBM Research

General medicine

- 131** Barriers and facilitators to knowledge transfer and exchange in palliative care research

EBM analysis

Primary care

- 137** Shared decision is the only outcome that matters when it comes to evaluating evidence-based practice

Research methods and reporting

- 140** Evidence synthesis software

August 2018 Volume 23 Issue 4

Evidence synthesis

Primary care

- 142** Appropriately testing patients with intermediate risk for coronary artery disease: how well are we doing?

Commentaries

General medicine

- 150** Screening ECGs in low-risk patients are associated with increased risk of downstream cardiac testing

Mental health

- 152** Study supports augmentation with a non-antidepressant agent over combining or switching antidepressants in unipolar depression

Maternal and child health

- 154** Procalcitonin-guided decision-making results in a significant reduction of antibiotic therapy and hospital stay in neonates with suspected early-onset sepsis

- 156** Real-time continuous glucose monitoring improves glycaemic variability and neonatal outcomes in pregnant women with type 1 diabetes

- 159** Associations between the timing and dosing of aspirin prophylaxis and term and preterm pre-eclampsia
