EBM opinion and debate

201 Redefining rapid reviews: a flexible framework for restricted systematic reviews

204 A word about evidence: 'rapid reviews' or 'restricted reviews'?

Original EBM research

General medicine

206 Developing tools to enhance the use of systematic reviews for clinical care in health systems

Research methods and reporting

General medicine

210 When to include clinical study reports and regulatory documents in systematic reviews

EBM analysis

General medicine

218 Research integrity and the law that never was

Mental health

225 What is the threshold for a clinical minimally important drug effect?

Journal club

General medicine

228 Iron absorption from oral iron supplements given on consecutive versus alternate days in iron-depleted women

December 2018 Volume 23 Issue 6

Commentaries

General medicine

230 Edoxaban is non-inferior to low-molecular-weight heparin for treating cancer-associated venous thromboembolism

231 Hormone therapy should not be prescribed for primary prevention of chronic medical conditions in asymptomatic postmenopausal women

Primary care

233 Trimethoprim is associated with a greater risk of acute kidney injury and hyperkalaemia in older adults compared with other antibiotics used to treat UTIs

235 Deprescribing cardiovascular drugs in low-risk patients increases the risk of uncontrolled blood pressure and LDL-cholesterol

Surgery

237 Frailty and frailty-related factors are associated with postoperative complications in older patients undergoing elective surgery

Letters

239 Effect size in CASTLE-AF trial: the issue of 'the tiny effect'

240 Letter to the editor re: Assessing the validity of surrogate endpoints in the context of a controversy about the measurement of effectiveness of hepatitis C virus treatment
