

CORRECTIONS

In the Data extraction section of the abstract "Review: Migraine frequency and severity guide symptomatic and prophylactic therapy" (1), the word *supportive* should be replaced with *suppository*.

Reference

1. Review: Migraine frequency and severity guide symptomatic and prophylactic therapy [Abstract]. ACPJ Club 1997 Nov-Dec;127:69. Evidence-Based Medicine. 1997 Nov-Dec;2:184. Abstract of: Pryse-Phillips WE, Dodick DW, Edmeads JG, et al. Guidelines for the diagnosis and management of migraine in clinical practice. CMAJ. 1997;156:1273-87.

In the Main results section of the abstract "Imipramine was as cost-effective as or more cost-effective than parox-

etine for depression" (1), the last sentence should read as follows: Cost-effectiveness was sensitive to drug costs per day, dosage, costs of treatment failure, and delivery costs.

Reference

1. Imipramine was as cost-effective as or more cost-effective than paroxetine for depression [Abstract]. Evidence-Based Medicine. 1997 Nov-Dec;2:192. Abstract of: Woods SW, Rizzo JA. Cost-effectiveness of antidepressant treatment reassessed. Br J Psychiatry. 1997;170:257-63.

In the table for the abstract "Thrombolysis had benefit similar to that of surgery for acute arterial leg occlusion but had more hemorrhagic complications" (1), the 95% confidence interval

around the 12% relative risk increase in death or amputation at 6 months should be -15 to 48, and the confidence interval around the 16% relative risk increase in death or amputation at 12 months should be -9 to 48.

Evidence-Based Medicine. 1998 Sep-Oct;3:144. Abstract of: Ouriel K, Veith EJ, Sasahara AA, for the Thrombolysis or Peripheral Arterial Surgery (TOPAS) Investigators. A comparison of recombinant urokinase with vascular surgery as initial treatment for acute arterial occlusion of the legs. N Engl J Med. 1998;338:1105-11.

The 1999 Oxford Workshop in
Teaching Evidence-Based Medicine
 11th - 16th July 1999; Oxford, UK.

Co-Chairs for this workshop:
Dr Martin Dawes,
 Department of Public Health & Primary Care;
Prof David L Sackett,
 NHS R&D Centre for Evidence-Based Medicine;
 University of Oxford.

This workshop is designed to help clinicians and others who are already familiar with EBM to develop skills in teaching EBM in clinical and classroom settings. Partial scholarships may be available for participants from developing countries or who are still in training.

Application forms may be obtained from:
 Ms Bridget Burchell, NHS R&D Centre for Evidence-Based Medicine,
 University of Oxford, Nuffield Department of Clinical Medicine,
 Level 5, John Radcliffe Hospital, Headley Way, Headington, OXFORD OX3 9DU
 Telephone: 01865 222941 FAX: 01865 222901
