

Evidence-Based Medicine

Contents

Purpose and procedure	130	Valacyclovir reduced genital herpes transmission in couples discordant for herpes simplex virus type 2 infection	146
Additional articles abstracted in ACP Journal Club	131	CBT added to tapering helped patients with chronic insomnia discontinue benzodiazepine use	147
EBM notebook		Rofecoxib did not slow progression of dementia in patients with established Alzheimer's disease	148
From research evidence to context: the challenge of individualising care	132	Strontium ranelate reduced the risk of vertebral fractures in postmenopausal women with osteoporosis	149
Letters: The first symptom of hyperkalaemia is death	134	Review: artesunate added to standard drug treatment reduces treatment failure in malaria	150
Evidently	136	Diagnosis	
Therapeutics		Review: the Ottawa knee rule accurately rules out knee fractures and can substantially reduce the need for x rays in patients with acute knee injuries	151
Review: exercise training delays death and hospital admission in chronic heart failure	137	Chest radiographs and BNP levels provided complementary information beyond clinical findings for diagnosing heart failure	152
6 monthly scheduled follow up of hypertension was equivalent to 3 monthly scheduled follow up	138	Review: vaginal signs and symptoms perform poorly in diagnosing vaginal candidiasis, bacterial vaginosis, and vaginal trichomoniasis	153
Review: inhaled long acting β_2 agonists are effective and safe in stable chronic asthma	139	Clinical prediction guide	
Doubling the dose of inhaled corticosteroids during asthma deterioration did not improve asthma control	140	Routine clinical variables predicted mortality in patients with heart failure and systolic dysfunction	154
Review: commonly used pharmacological treatments for bronchiolitis in children do not seem to be effective	141	Review: clinical gestalt strategies and clinical prediction rules have similar discriminate pretest probabilities of pulmonary embolism	155
Postexposure prophylaxis with oseltamivir reduced influenza transmission in households	142	The BODE index predicted death in chronic obstructive pulmonary disease	156
Cholesterol lowering with simvastatin reduced stroke in patients with, or at risk of, vascular disease	143	Resource review	157
High dose atorvastatin was superior to standard dose pravastatin in reducing death or major CV events in acute coronary syndrome	144	Other articles noted	159
Immediate carotid endarterectomy reduced non-perioperative stroke in severe asymptomatic carotid artery stenosis	145	Glossary	Inside back cover

The virtual journal Paediatric Asthma, produced by the American Academy of Paediatrics and the BMJ Publishing Group, is now available free of charge to EBM subscribers at www.pediatric-asthma.org
