## Contents

<b>Purpose and procedure</b> .....	162	Review: adults who require inhaled corticosteroids benefit from a moderate starting dose .....	178
<b>Additional articles abstracted in ACP Journal Club</b> .....	163	Review: rotavirus vaccines moderately reduce rotavirus diarrhoea in children .....	179
<b>EBM notebook</b>		Review: non-steroidal anti-inflammatory drugs are slightly better than paracetamol for reducing pain in osteoarthritis .....	180
Jottings .....	164	Review: most selective serotonin reuptake inhibitors lead to adverse events that appear to outweigh the benefits in children .....	181
Measurement scales.....	164	Non-sterile gloves were as safe as sterile gloves for repair of uncomplicated lacerations .....	182
Evidently .....	167	Primary tumour excision with a surrounding margin of 3 cm reduced recurrence in melanomas > 2 mm thick .....	183
Primary Care Physicians and Internal Medicine Subspecialists: become a sentinel reader .....	168	Oestrogen therapy increased stroke risk and decreased hip fracture risk but did not affect coronary heart disease risk in postmenopausal women with prior hysterectomy .....	184
<b>Therapeutics</b>		<b>Diagnosis</b>	
Review: prophylactic use of vitamin D reduces falls in older persons .....	169	Review: several factors are associated with the performance of D-dimer assays for detecting deep venous thrombosis .....	185
Review: calcium supplementation has a small positive effect on bone mineral density but not fractures in postmenopausal women .....	170	Review: negative ELISA results are best for excluding a diagnosis of deep venous thrombosis or pulmonary embolism .....	186
Review: spinal manipulative therapy is not better than standard treatments for low back pain .....	171	<b>Prognosis</b>	
Review: soluble fibre improves overall symptoms and constipation but not abdominal pain in irritable bowel syndrome .....	172	Men had greater risk of recurrent venous thromboembolism than women .....	187
Review: several non-pharmacological, pharmacological, and surgical treatments may be effective in urinary incontinence .....	173	<b>Clinical prediction guide</b>	
Review: exercise training in patients with heart failure is safe .....	174	A bedside prediction tool predicted all cause mortality 6 months after discharge for acute coronary syndrome .....	188
Review: exercise based cardiac rehabilitation reduces all cause and cardiac mortality in coronary heart disease .....	175	<b>Resource Reviews</b> .....	189
Review: topical mupirocin or fusidic acid may be more effective than oral antibiotics for limited non-bullous impetigo .....	176	<b>Other articles noted</b> .....	191
Review: limited data on dietary treatment of type 2 diabetes show that dietary advice plus exercise appears more beneficial than dietary advice alone .....	177	<b>Glossary</b> .....	Inside back cover

The virtual journal Paediatric Asthma, produced by the American Academy of Paediatrics and the BMJ Publishing Group, is now available free of charge to EBM subscribers at [www.pediatric-asthma.org](http://www.pediatric-asthma.org)
