Figure 5. Link to the list of clinical information packages in progress of release

The screenshot shows the Health Canada website interface for searching clinical information. At the top, there is a navigation bar with the Government of Canada logo and a search bar. Below the navigation bar, there is a breadcrumb trail: Home > Health > Drug and health products > Licensing, authorizing and manufacturing drug and health products > Drug and health product review and approval > Clinical information on drugs and health products. The main heading is "Search for clinical information on drugs and medical devices". Below this, there is a note: "Content and search results on this site are in the language provided by the manufacturer. Access and use of clinical information is governed by the Terms of Use." There are two tabs: "Drugs" (selected) and "Medical devices". A search bar contains the text "Search drug content" and has "Search" and "Reset" buttons. Below the search bar is a "Filter drugs by:" section with several dropdown menus: "Brand name:", "Manufacturer:", "Ingredients:", "Regulatory activity:", "Regulatory decision:", "Decision date:", and "Release date:". To the right of the filters, there is a section titled "Don't see what you're looking for?" with a link to "Check the list of clinical information releases in progress to see what we're already working on." Below this, there is a red-bordered box containing the text: "Still don't see what you're looking for? You can request clinical information for a drug or a medical device." Below the filters, there is a section titled "Additional information" with a link to "Additional information on the public release of clinical information."

## Request public release of clinical information - Drugs

From [Health Canada](#)

**i** All personal information created, held or collected by this department is protected under the [Privacy Act](#). This means that you will be informed of the purpose for which it is being collected and how to exercise your right of access to that information. You will be asked for your consent where appropriate.

Complete this form to request detailed clinical information submitted to Health Canada for the authorization of drugs. This information may be of interest to researchers with the technical capacity to analyse large volumes of unstructured information. Other Health Canada publications provide more accessible information on the safety and efficacy of drugs and medical devices. Before submitting a request, please first consult these [other sources of information](#).

Drugs **Medical devices**

**Drug information**

\* **Drug name (required)**

Brand / Product Name or ingredient name as on the label

**Dosage form(s) and route(s) of administration**

E.g. tablet, capsule, cream, powder for solution, vial, oral, topical, intravenous

\* **Manufacturer name (required)**

Sponsor or company that appears on the label and owns the DR/NO:

\* **Indication(s) / condition(s) of use (required)**

Use of drug, e.g. use to treat angina / hypertension, symptoms of hay fever, preventive measure

**Submission control number**

Internal application number appears on Product Monograph and Summary Basis of Decision

**Request details**

\* **I am requesting information from (required)**

The initial marketing approval  
 Post-authorization activities

\* **I am specifically interested in (required)**

All clinical studies in adults  
 Paediatric studies  
 Phase I  
 Phase II  
 Phase III  
 Effectiveness studies  
 Safety studies  
 Other

\* **Reason for request and any additional information (required)**

**Requester information**

\* **Name of requester (required)**

Full name of requester

\* **Email address (required)**

Valid email required for correspondence

**Requester category / originator**

- None -

Select the category that applies

**Affiliation(s)**

Requester's affiliation(s)

**Title**

Requester's title

**Verification**

Help prevent automated spam submissions by answering the question below

\* **Math question (10 + 6) (required)**

10 + 6 =

Solve this simple math problem and enter the result (e.g. for "1+3", enter "4")
